It is a wonderful moment, the moment that the enemy kneels and falls from the determination of your brothers and sisters. A few days ago Roberto Adinolfi, CEO-magister of the nuclear energy company *Ansaldo Nucleare*, was shot by our brothers and sisters of the Olga Cell of the Informal Anarchist Federation (FAI)–International Revolutionary Front (FRI).

Roberto Adinolfi is a high priest of the new totalitarianism of science and technology imperatives. Science has become the modern religion of our time, promising an apathetic society the lethargy of a stuffed belly and artificial paradises in exchange for the coldness of an empty heart drowned in compromise.

The empire of scientific totalitarianism is fed by the vanity of an anthropocentric authoritarian civilization. A civilization imposed on our desires, our choices, the nature and animals, turning life into a quantitative scale to fit its miserable statistics. At the same time,

contemporary people end up unable to even dare to live authentically, without hypocrisy, and as they sink deeper into their reliance on technological substitutes of real life they create illusions and superficial relationships. Now, with their scientific discoveries, they can 'offer' us more time to grow old but deprive us of a way to live authentically. So, science generates the coldest of all monsters of the human folly. It lays the technological fascistization of our lives. It lays genetic testing, electronic monitoring, laboratory animals, research statistics, the dictatorship of machines and numbers.

Alongside the high priests of nuclear energy like Adinolfi poison and plunder the nature, animals and people, dressing up their scientific crimes in the guise of evolution. The shootings of Adinolfi are the new poetry of anarchist action. In the social machine of indolence and compromise, the humanitarian appeals and the reformist inhibitions concerning 'respect' for human life will never miss. But in our own consciousness code things are clear. We don't have any respect for human life as SELF-WORTH. What human life per se does is to produce the option of CHOICES. The CHOICES are those that give value to human life, or devalue and trivialize it. Thus, what is the reason to respect the human life of small and large tyrants like Adinolfi, who haven't for even a moment respected our own lives?

The practice of armed attacks was, is and will be an integral part of the new anarchist urban guerrilla warfare. The choice of the COMRADES of FAI/FRI to name the cell that has attacked Adinolfi as Olga Cell after our comrade Olga Ekonomidou is a great honour for us and a profound act of friendship, one we will never forget. The bullets and the words of FAI/FRI have managed to break the impregnable of the specific conditions imposed on Olga in Diavata prisons and to storm the solitary cell where she is being held under disciplinary punishment, monitored 24 hours a day through CCTV camera; they have, thus, given her strength and smile now that she knows everything continues.

For us the Italian FAI/FRI is the Conspiracy's second home, and half of our heart belongs to the Italian FAI/FRI. We look forward

to the time when we will join our sisters and brothers of FAI/FRI and surge forward into new battles for the lasting anarchist insurrection. Both FAI/FRI and Conspiracy of Cells of Fire are not a prescription for canned answers, but they are a good way to begin with questions and queries for an authentic and free life. Comrades of FAI/FRI: may a bullet come with our every word, as thought comes with your every bullet... And life's magazine continues to be loaded with dreams, desires, anxieties, tears, smiles, concerns, discussions, actions...

One day after the responsibility claim by the Olga Cell of FAI/FRI, we were informed by the media that the Bologna's prosecution office, via the ridiculous puppet-public prosecutor Enrico Cieri, issued arrest warrants against us for the booby-trapped parcel that was sent to Berlusconi. More precisely, arrest warrants were issued for five of us (Panagiotis Argirou, Giorgos Nikolopoulos, Haris Hadjimihelakis, Gerasimos Tsakalos and Christos Tsakalos), as well as for two unrelated guys that have no connection whatsoever with the Conspiracy and the insurrectionary anarchy of FAI/FRI.

The warrants against us are in retaliation by the Bologna's prosecution office for the attack of our sisters and brothers of the FAI/FRI Olga Cell. It is a desperate attempt of the Italian authorities to interrupt and impede the informal international network that has developed among the tens of FAI/FRI cells. But in vain. The invitation-inducement of Italian comrades to create an informal anarchist federation of anarchist of praxis and its constant advancement is already in the minds and hearts of comrades from around the world. No prosecution can ever stop it anywhere.

The comrades of FAI/FRI had written in one of their texts 'Do not say that we are few,' and we now add 'Do not say that they can stop us...' The Informal Anarchist Federation travels over borders and cities, carrying with it the momentum of a lasting anarchist insurrection. As the CCF imprisoned members' cell, along with our comrade and brother Theofilos Mavropoulos, we are TOGETHER with the FAI/FRI on this journey of no return. We have burned the

bridges behind us, and any inhibition has died. We are anarchists of praxis, and all we can say to the Bologna's prosecution office is this: Your warrants are nothing but shitpapers to us, and we are completely indifferent towards the ridiculousness of your existence as the Italian State's judicial representatives. It is a dangerous time for the prosecutors' mafia nowadays. The lives of worms like you might soon meet with a heavy rain of bullets, or a powerful bomb in your car, or an explosive parcel in your hands... The arrest warrants in retaliation against us is yet another proud proof that the FAI/FRI Olga Cell counteracted with outstanding accuracy, causing panic in the enemy. The attacks that our sisters and brothers preannounced through their communiqué are an admirable continuation of the challenge unleashed by both FAI/FRI and CCF against the Power and the social machine. That is the challenge of the lasting anarchist insurrection. That is the challenge of the international cooperation of anarchists of praxis.

And if some of us are now captives in the enemy's hands, that does not frighten us or make us regret. On the contrary, prison feeds the wolf within us, and our rage against the Power and its society grows stronger. All of us, along with Eat, Billy, Gabriel, Marco, Silvia, Billy, Costa, Jock and the imprisoned comrades in Chile, Mexico, Italy and elsewhere, nor for a moment were we left alone. Because we have all of you, the unknown free brothers and sisters, whose actions we feel as our own actions, whose words are met with our own...
